To Whom It May Concern:

**RE: PETER VELINOV:**

Peter VELINOV has done work for me a number of times in the last five years or so. He was the support person we were dealing with while he was at Medco.

He was always very conscientious and was very diligent in his approach to solving problems. He was also very helpful when it came to reconfiguring our Unix system and transferring our data to new hardware. He was also able to repair our database when it was corrupted. Things have been running smoothly for several years now, since he cleared things up.

Yours truly

R. Simkus M. D., C. M.

To Whom It May Concern:

re Peter VELINOV

Peter has provided our 5 offices with technical support for approximately eight years, first through Exan-Medco and later, as our systems administrator. During this time, he has installed and administrated our SCO UNIX system, resolved software and hardware problems, developed specialized programs and trained our staff in the medical system. He also designed and programmed the HCB module and latest features to our medical management system. We have been very pleased with these programs. Peter has always been available when urgent help was needed. He has been most accommodating, sometimes, working at night and on week-ends. We have found him to be knowledgeable, prompt and efficient. Our staff really appreciates having his services. All said and done, we couldn't manage without him.

Yours truly,  
(P.Y. Miki, MD) Sr. Radiologist

Re: Peter VELINOV

To Whom It May Concern

It is with pleasure that I respond to Peter's request to provide a written reference. Peter was our support person for Exan for approximately 7 years. He was extremely knowledgeable regarding our software and it was reassuring knowing that any problem which arose would be dealt with promptly and efficiently.

Over the years Peter has installed and upgraded our computer system, including a raport terminal. He has also designed the new Workman's Compensation Board module and upgraded many features to our software. I recall a few times when we needed the computer to perform specific functions, this was accomplished by Mark writing a program to rectify the problem.

I can honestly say Peter has been greatly missed since his departure from Exan and we wish him every success in his future endeavors.

Sincerely,

Sandy Pollitt

Office Manager
